### **GLOBAL CORPORATE REAL ESTATE EXECUTIVES EARN THE MCR, MASTER OF CORPORATE REAL ESTATE**

#### ***MCR Professional Designation Awarded by CoreNet Global, Leading Professional Association for Corporate Real Estate and Workplace Executives***

**Atlanta, GA - November 21, 2011**– Ninety-five corporate real estate executives and workplace professionals from around the world successfully earned the MCR (Master of Corporate Real Estate), the industry’s most prestigious designation, which is awarded by CoreNet Global, the world’s leading professional association for corporate real estate executives, service providers and economic developers ([www.corenetglobal.org](http://www.corenetglobal.org)).

The CoreNet Global MCR professional designation is part of a comprehensive career development program for the corporate real estate industry. The MCR provides essential skills that focus on critical business issues. It reflects strategic competence and successful experience as a corporate real estate expert.

“The MCR conveys superior training, practical experience, professional competence and a high level of industry knowledge,” said Angela Cain, CEO of CoreNet Global. “These are credentials recognized by corporate real estate leadership worldwide. Graduates of the rigorous MCR program have earned respect as experts in the multiple disciplines of corporate real estate.”

The MCR program was established in 1982 and is the professional designation of CoreNet Global, which is the largest worldwide organization devoted to the professional education of corporate real estate professionals. CoreNet Global has graduated 1581 MCRs since 1982 worldwide. Today, there are more than 927 active MCRs globally, including Asia, Australia, EMEA, New Zealand and North America.

To receive the MCR designation, professionals must complete 104 hours of classroom training by completing three required seminars, two elective seminars and a Capstone within a five-year period. An assessment is given at the end of each seminar and a passing grade must be earned to receive credit. Each designee will further their education through continuing professional development which must be renewed every three years. **A full list of the 2011 graduates follows:**
